

Treya Nash

D, Me, You, We

Players Score for
Omar, Roberto, & Drew

Notes

For this version of D, Me, You, We, the instruments are: Trumpet in Bb (Player 1), Viola (Player 2), and Electric Guitar (Player 3).

Some pitches used can be played at any octave, some must be in the specific octave written. Trumpet part is always transposed, guitar part should sound an octave down when pitches are in specific octave.

Cues and player instructions are generally **bold** if player instructions happen as a response to the cue. Some player instructions in a section are bold to draw attention to the action itself. For the most part, Players respond to cues, but sometimes players are responsible for moving the scene forward. The following symbols are used for specific situations:

A cue that should immediately be followed by player action (immediate timing is required here, in other cases where player action follows a cue, it does not need to be so instantaneous)

This symbol indicates that a player action advances the scene with no external cue.

Lots of actions continue for an unspecified amount of time, these will become clearer during rehearsal. Lines with arrows are used to indicate a continuing action.

Players Position:

Players will sit on the right side of the stage, behind the "bedroom" but in front of the screen.

In addition to your instruments, you will be given the following objects:

All Players:

- * toothbrush and a piece of cardboard
- * small bag of marbles

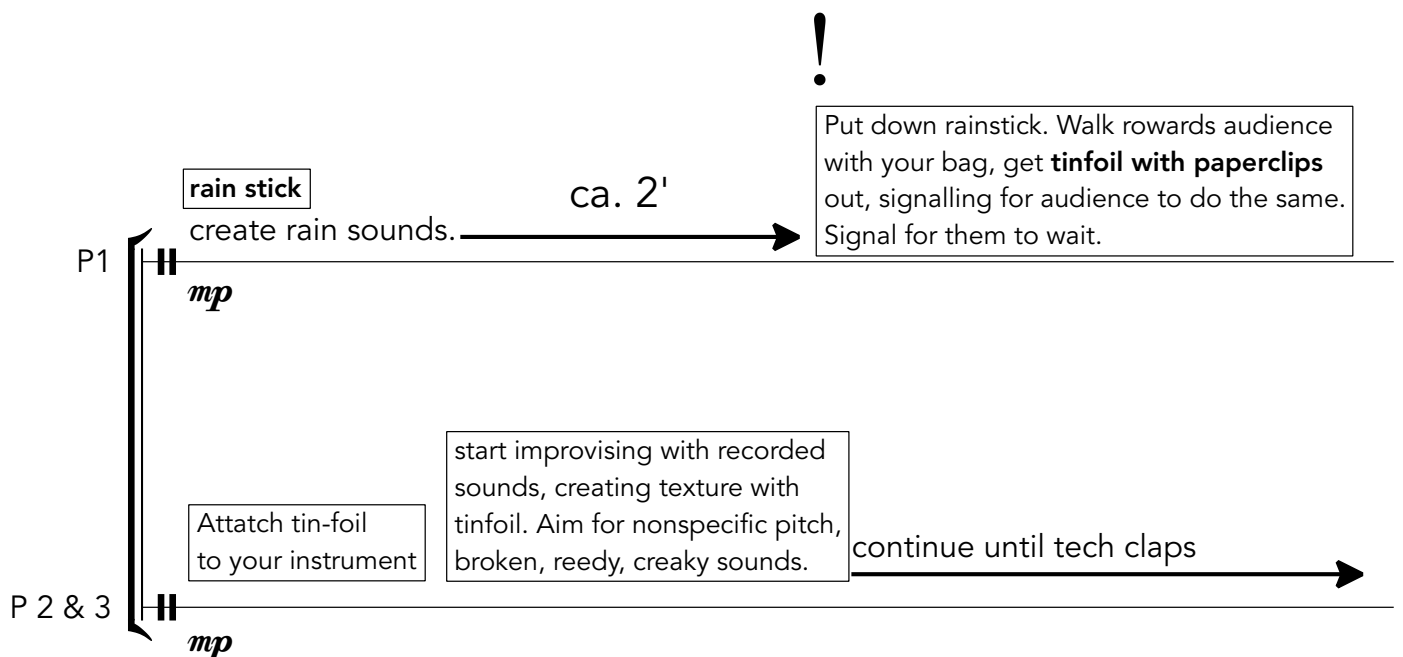

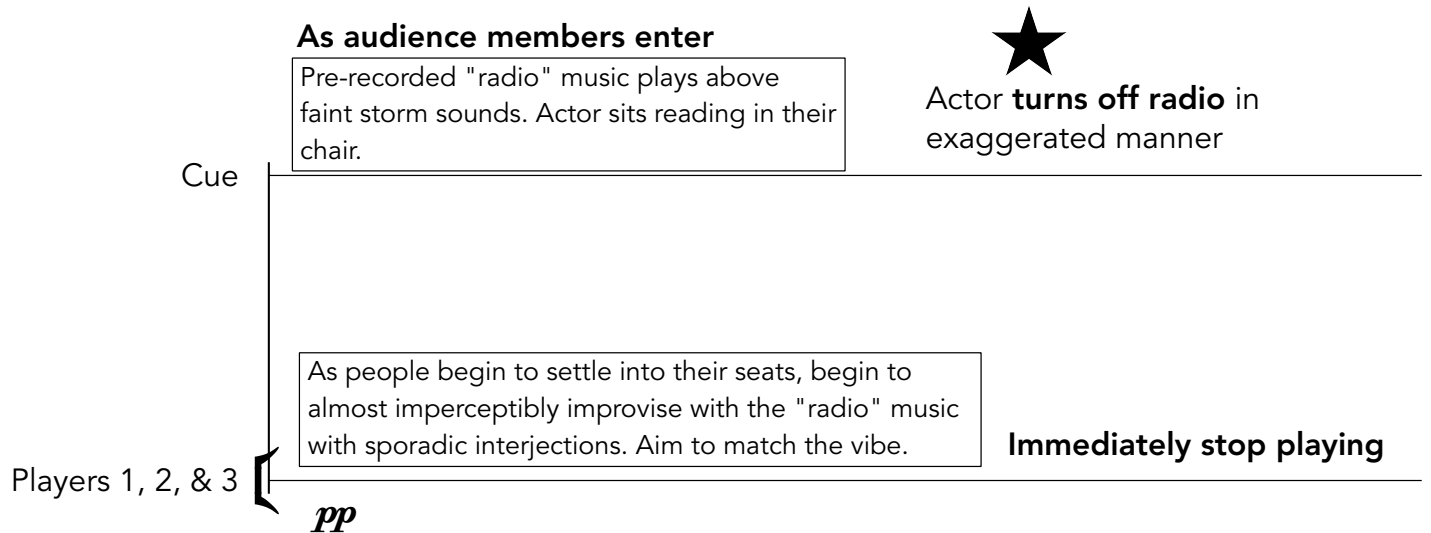

Player 1:

- * rainstick
- * tinfoil filled with paperclips
- * bag containing bags of marbles for the audience

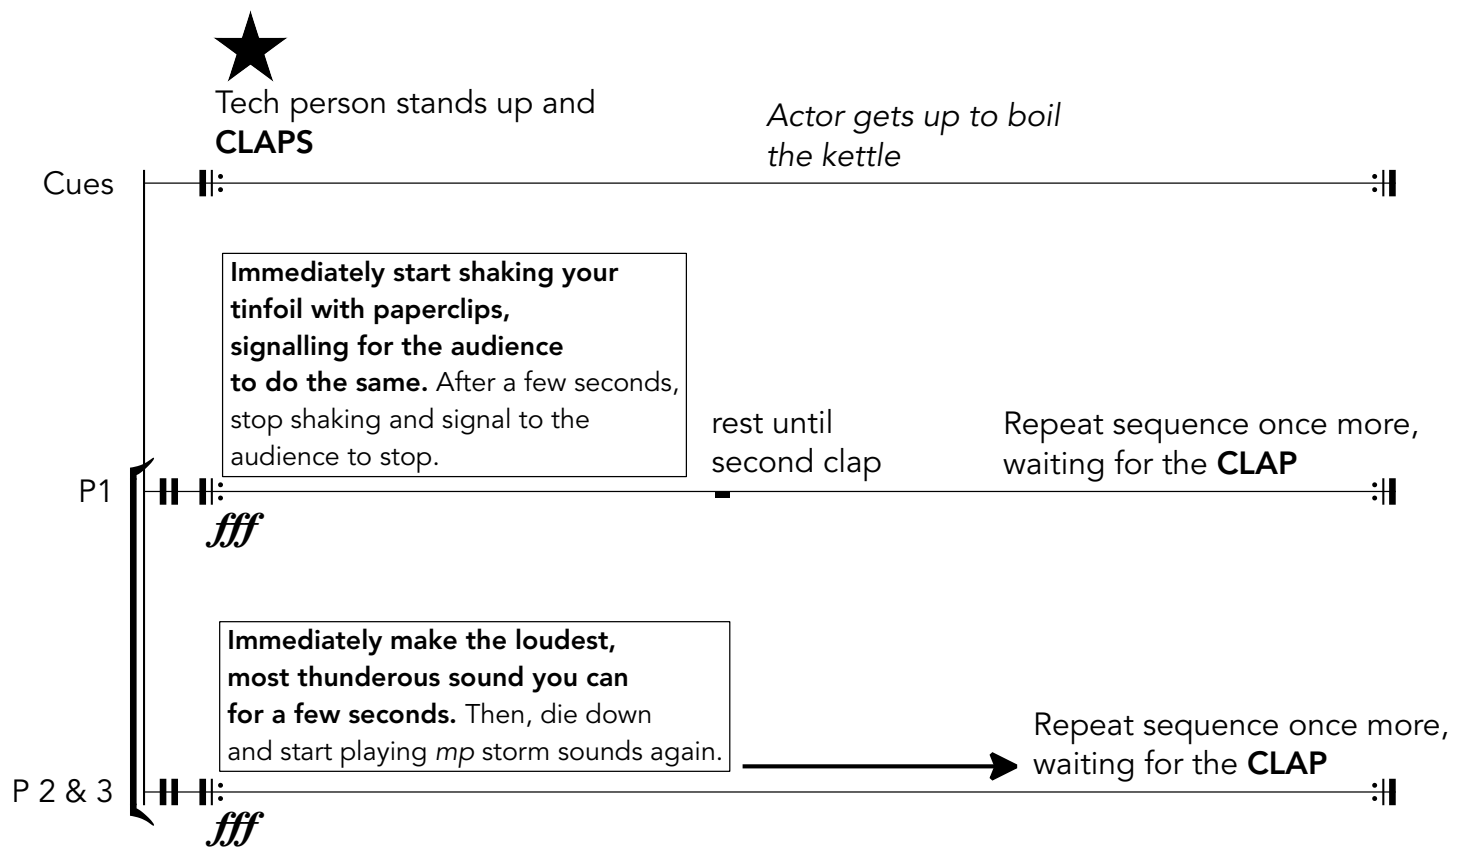

Players 2 & 3:

- * tinfoil to apply to your instrument in some way

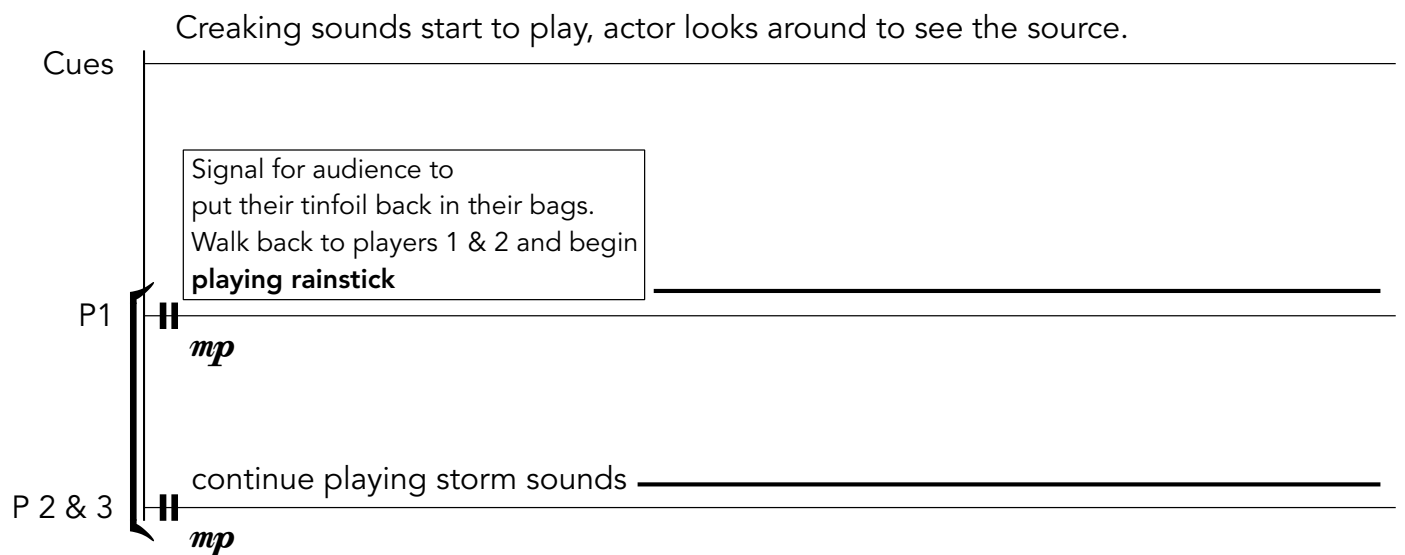

Scene I: Storm

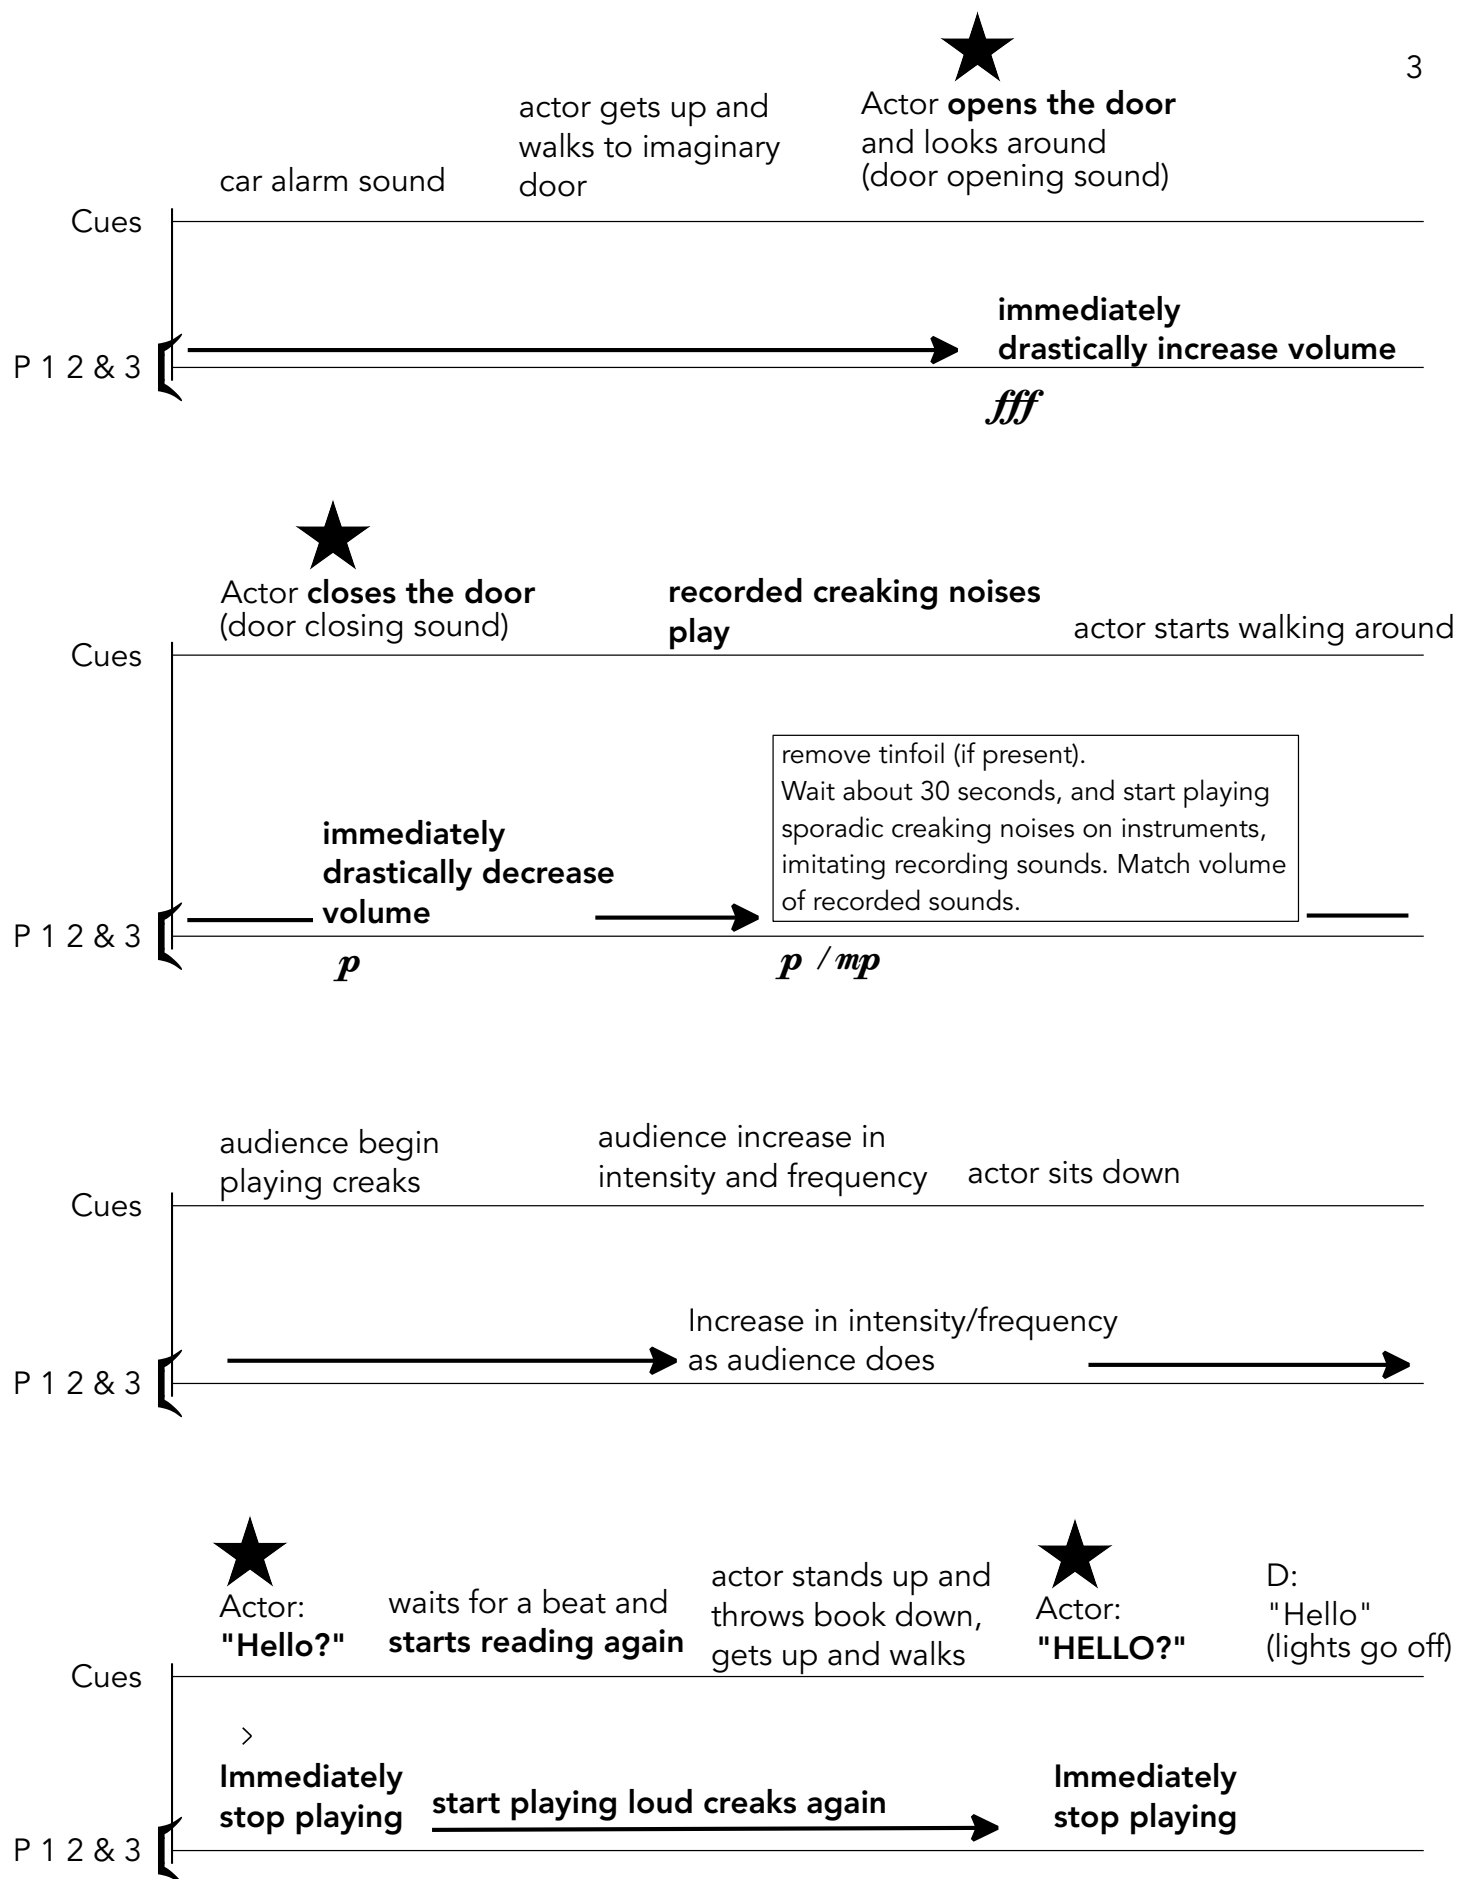

Thunder Sequence

Creaking Sequence

Scene II: First Encounter

Actor turns on cellphone light and looks around, conversing with D

Cues

P 1 2 & 3 { rest until lonely section

Lonely Section

D:

"I'm not here to harm you. Are you lonely?"

Cues

Audience members will answer a poll on whether they are lonely with the answers YES (G), MAYBE (Bb) or NO (E) which will **trigger their pitch to play from the speakers**. As the pitches sound, repeat your designated pitch with similar rhythmic frequency

(transposing always)

(any octave)

P1 {  *mp / mf*

(any octave)

P2 {  *mp / mf*

(any octave)

P3 {  *mp / mf*

Actor and D exchange brief words, lights come back on.

Cues

One pitch will "win", and this pitch will play from the speakers. **All switch to playing this pitch repetitively** in any octave/ rhythmic pattern

ca. 10 seconds

!

rest until actor **sits back down**

P 1 2 & 3 {

mf

When actor **sits back in their chair and starts improvising conversation** with D, start First Encounter Formula

Cues

First Encounter Formula

Repeat your line (at any octave) at a slow tempo, relative to yourself and not the other players. You can vary tempo at will but keep it slow. Continue until actor starts brushing their teeth.

Largo

smooth scratchy smooth scratchy smooth scratchy

P1

p

smooth smooth scratchy scratchy scratchy

P2

p

scratchy smooth smooth scratchy smooth scratchy smooth

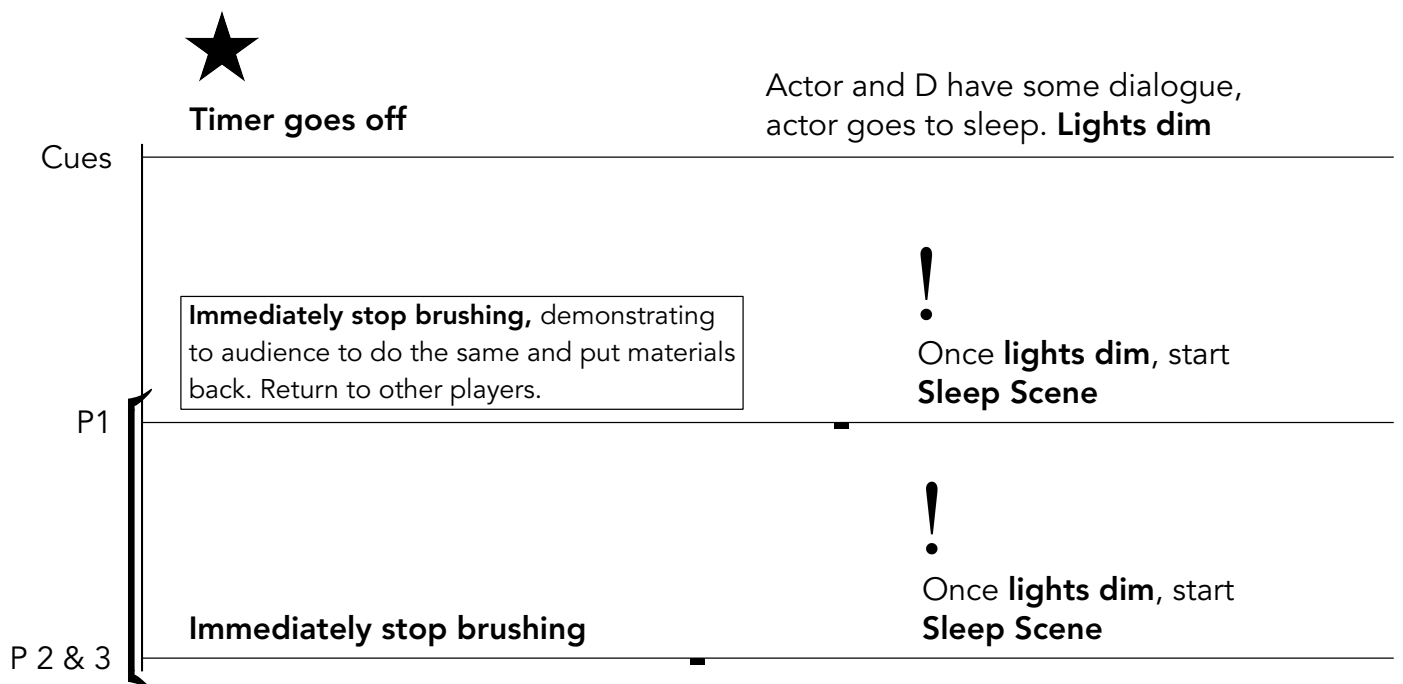

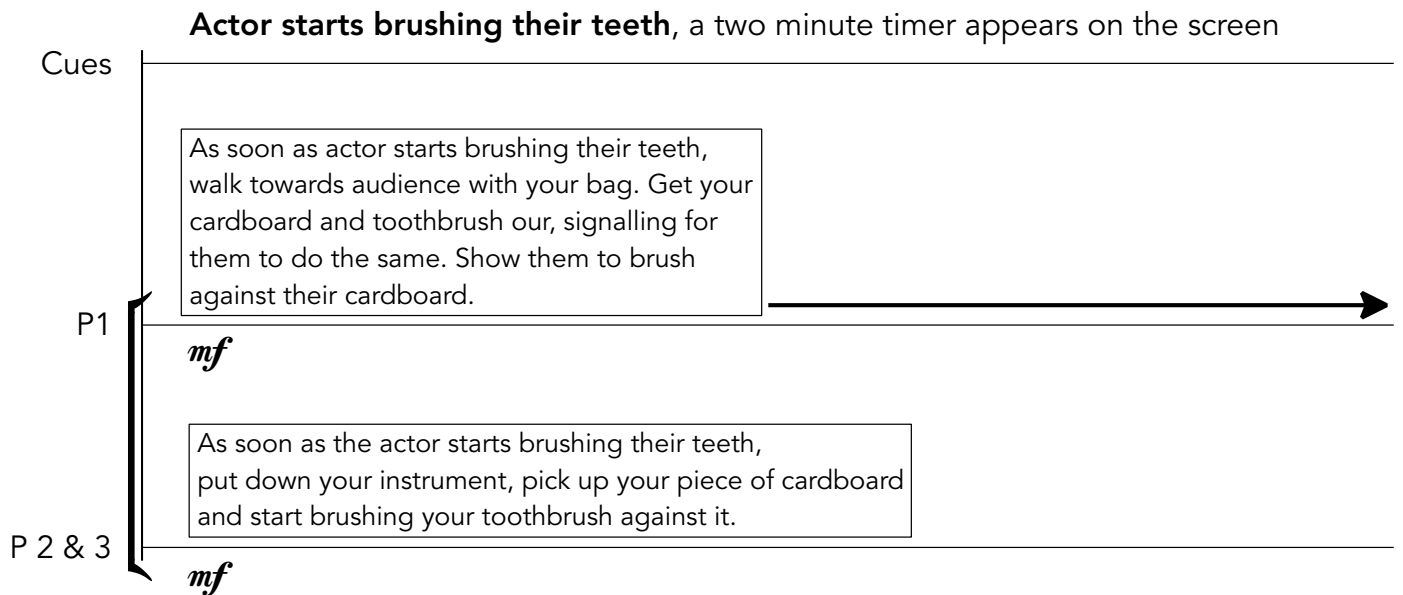

P3

p

Eventually, when you start to stop hearing what anything sounds like, be free and mix in other pitches, change the pattern, just start playing whatever you want as long as it doesn't obscure the dialogue. Have fun with it!

Actor & D will continue improvising for about 5 minutes **until Actor starts stretching and D says they should go to bed**. When this happens, **pick one pitch and play it continuously at a low volume**, taking breaks if necessary. Stop playing when actor starts brushing their teeth and **TWO MINUTE TIMER** appears on the screen.

Toothbrush Sequence

Scene III: SLEEP SCENE

* Play each pitch for the duration of your breath out, then rest for the duration of your breath in.
 * Breaths should be slow and unaudible and do not need to always be the same duration. No need to sync with other players.
 * Start in an octave as high as possible that still sounds mellowish.

dolce
out in etc.

P1 *mp*

dolce
out in etc.

P2 *mp*

dolce
out in etc.

P3 *mp*

Repeat, moving down an octave.
 When you can no longer go lower,
 move back to original octave.

P1

P2

P3

Continue for a few minutes until you hear **four recorded crotales beats**. These serve to **count you in** to the in time sequence

Listen for the four recorded crotales beats as a count-in,
then begin to play **in time**.
Start in the same register as the previous section.

$\bullet = 60$
dolce

P1 *mp*

P2 *dolce*
mp

P3 (sounds down an octave)
dolce
mp

After the first play through, **repeat 6 more times**, speeding up each time. Move out of sync with the other players.

Rest until audience phones begin playing alarm sounds)

P1 *8^{vb}*

P2

P3

After about 30s,
actor hits alarm clock

Audience begin playing
alarm sounds

Cues

Begin to improvise with
audience alarm sounds

Immediately stop playing

P 1 2 & 3

Scene IV: COFFEE

Actor and D have some brief conversation,

wait for actor to say:

"I'm too tired for this.

Don't talk to me again until I've had my **coffee**"

(actor starts making coffee)

Cues

$\frac{3}{4}$

Immediately after actor says "coffee":

Play specific pitches.

Repeat your pitch with short breaks inbetween, creating an amorphous interlocking texture between players. Find a thin, rasping timbre.

Three musical staves for players P1, P2, and P3, all in 3/4 time. Each staff begins with a treble clef (P1 and P3) or an alto clef (P2) and a *mf* dynamic marking. The notation shows a single note on a staff with a long horizontal line and an arrow indicating it continues to the end of the staff.

P1: Treble clef, *mf*, note on G4.

P2: Alto clef, *mf*, note on C4 (with a flat).

P3: Treble clef, *mf*, note on G4.

Continue until actor **takes first sip of coffee**

★

Actor **takes a sip of coffee**

Cues

3
4

♩ = 110
Immediately:
Player 1 sets tempo. Play through once

dolce

P1 *mp*

break when necessary

P2 *p*

break when necessary

P3 *p*

D (to audience):
"I can't drink, do any of you want this?
Raise your hand if you'd like it."

Cues

Walk to the audience member with their hand raised, and give them the second cup of coffee, then walk back. Rest until Elevator Music ends.

P1 *tr*

Rest until set change then start Elevator Music

P2 *tr*

Rest until set change then start Elevator Music

P3 *tr*

Elevator Music

As set change starts:

Walk to stand in front of the audience, facing them. Motion to divide them into 2 and signal that your half should follow you.

P 2 & 3 

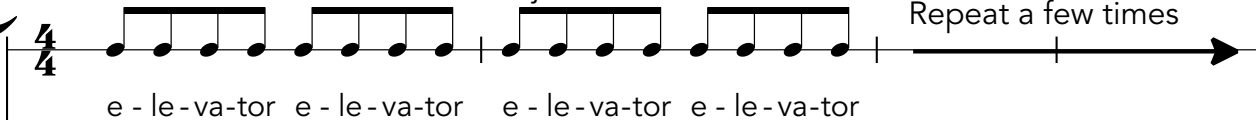

Allegro

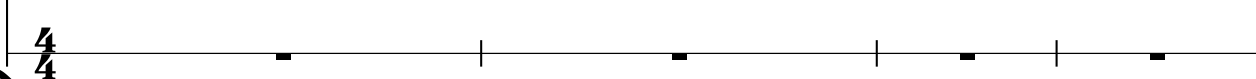

Choose any pitch and sing:

mf

signal for your group
to join in

Repeat a few times

P2 

P3 

!

signal for **group to stop**.

P2 

P3 

Begin to trade off politely with your groups, then continue to overlap and speed up until it becomes chaotic. Slow back down if you have time.

Stop when you hear D say "Ok, you can stop playing elevator music!"

Return to your original positions.

P 2 & 3 

Frog Sequence

As other players return:
Grab your bag of marble bags.
Hand them out to a few audience members and show them how to play them (move around/shake)

Continue to hand bags out one by one, continually demonstrating to them to shake. When everyone has one, continue to shake your marbles as you head back to the other players.

P1 *mf*

P 2 & 3 *mf*

As player 1 starts handing out bags of marbles, start playing your own bag of marbles in the same manner.

Once player 1 returns:

Pitches should be in **this specific register**.
Play out of sync with each other and vary pulse slightly.

Continue for 30" - 1' then **die down and stop**.

! Rest until language sequence

♩ = slow, below 60

P1

p *n*

wait about 5 seconds

P2

p *f* *n*

wait about 3 seconds

P3

p *f* *n*

Actor asks D to teach their language. D says "I can certainly try"
Actor begins asking D how to say different words.

Cues

For each word, the three of you will make a brief sound together, starting and ending roughly at the same time and focusing on timbre.

P 1 2 & 3

Actor: "How do you say calm?"
D: **"Like this"**

Actor tries to
recreate sound

D: "not bad"

Actor: **"How do you say friend?"**

Cues

Create a sound

Create a sound

P 1 2 & 3

f

Actor tries to
recreate sound

Audience tries to
recreate sound

Actor: **"How do you say home?"**

Cues

Create a sound

P 1 2 & 3

Actor tries to
recreate sound

Audience try to
recreate sound

Actor:

"How am I doing?"

D: "You're doing great"

Cues

♩ = ca. 100

Actor: **"I wish I could see your face"**

conversation continues

Cues

P1

passionately

*p**mp**p*

P 2 & 3

Rest until actor starts to walk home

Actor:

**"Let's go home and
make some tea"** (starts "walking" in place)

Cues

Repeat "First Encounter Formula":

Repeat your line (at any octave) at a slow tempo, relative to yourself and not the other players. You can vary tempo at will but keep it slow. Continue until actor starts brushing their teeth.

Largo

P3 

Stop on hearing this dialogue:

Actor:

"Alright, one last question. Is there tea where you're from?"

Actor:

"Alright, one last question. Is there tea where you're from?"

D:

"I wouldn't want to ruin the surprise"

Audience members vote on whether actor should go or not

Actor walks to the front of the stage and asks:

"What about all of you? Do you want to come too? If you do, come down here"

Cues

P 1 2 & 3

Put down your instruments and go to the stage to join the others.

Lights go down, lights come up, END
